## FROM THE HEAD TEACHER BY KAREN BIEGE

Hello Adams Families!

I am excited to be the Head Teacher at Summer School. Many of you already know me, but I would love to share a few interesting facts about myself. I have been an educator in the Janesville School District for 21 years. My current position is Innovation Specialist at Adams and Washington Schools. All three of my children attended Adams and went to summer school as well. It is my passion to help all children learn in a safe, engaging and enriched environment. I am very lucky to work with K-5 students to incorporate STEAM (Science, Technology, Engineering, the Arts and Mathematics) on a weekly basis during the school year. Now I have an opportunity to help students enjoy the "Power of STEAM" during summer school!

### Spirit Week

Attending Summer School at Adams is a great opportunity for students to extend their learning. It is a time to try new things, be creative, use technology, and to have fun learning. Students entering Kindergarten and First Grades will have the opportunity to emerge themselves in early learning lessons that will help them to gain valuable skills. Students entering grades 2-5 will be rotating to four different stations and will be highly engaged and active in all areas. Summer School at Adams is the perfect place for students to experience new opportunities and to enhance their learning.

Please consider signing up your child for Summer School today. Visit the Infinite Campus Site to create an account, student ID# can be obtained from the building secretary or you can contact the Summer School Secretary at the ESC. Then sign up for course: ADA120.

Summer School Hours: 8:00-11:30 AM.

Breakfast and Lunch will be served to all who attend.

Other Highlights: The Bookmobile from the Hedberg Public Library will be visiting once a week along with offering other fun reading incentives. Plus, students will be participating in the 4th annual Scholastic Summer Reading Program!

Best Regards,

Karen Biege
